

ANDRÉS HERENCIA

Forward Deployed AI Engineer | 2 x AWS-Certified | + 3 years designing & building AI-driven products

📍 Madrid, Spain | ✉ andresherencia2000 | 📞 +34608325729 | 🔗 LinkedIn | 🐙 GitHub

EXPERIENCE

Forward Deployed AI Engineer ————— 02/2026 – Current

📍 *InnoIT | Working for one of the "Big Three" credit reporting agencies.*

- Design and build **agentic tools** in TypeScript using **skills** and **MCP servers**.
- Developed an **event-driven architecture on AWS** to generate EWS reports, reducing delivery time from 4-5 days to **under 10 minutes**.
- Lead internal use cases for **consulting engagements**; Support role profiling via **technical interviews**.

Machine Learning Engineer ————— 09/2024 – 02/2026

📍 *Minsait @ BBVA*

- Developed a serverless **GenAI-based application** to automate claims classification process, reaching **98% accuracy** and cutting complaint-mail triage from hours to **under 3 minutes**.
- Led planning and delivery for internal Minsait projects: **BigRAG** (MS Azure) and **LLM Evaluator**.

DevOps & MLOps Engineer ————— 02/2024 – 09/2024

📍 *The Cliff*

- Scaled and automated AWS cloud infrastructure, with **CI/CD** pipelines to deploy microservices.
- Improved **LLM** performance and observability by delivering **MLOps** workflows for **RAG** systems.

Big Data & Data Science Researcher ————— 12/2021 – 04/2023

📍 *SUNRISE European project (Part-time)*

- Built and trained a logistic **optimization model** for the CRTM transport network.
- Performed geospatial data analysis using the **Google Earth API** and **PySpark**.

📍 *Cabify Chair (Internship)*

- Developed statistical models for a **mobility simulation platform** actively used by the company.
- Presented this work as part of my **Bachelor's Thesis**, awarded the maximum grade [**10/10**].

EDUCATION

Master's Degree in Statistical & Computational Data Science [9/10] ————— 09/2023 – 06/2024

Universidad Complutense de Madrid & Universidad Politécnica de Madrid

→ **Thesis:** Analysis of the Transformer architecture and foundation model *fine-tuning* using QLoRA [9.8/10]

Bachelor's Degree in Telecommunication Engineering ————— 09/2018 – 07/2022

Universidad Politécnica de Madrid

CERTIFICATIONS

AWS Certified Solutions Architect – Associate (✓) ————— 04/2025 – 04/2028

AWS Certified Machine Learning Engineer – Associate (✓) ————— 11/2025 – 11/2028

PROJECTS

SplitterMR (+25 ★ on GH): A Python library to ingest & transform documents into markdown chunks.

PPTX Generator: An e2e GenAI MVP that turns NLP prompts and user media into editable PowerPoint decks.

BigRAG: A hybrid search-powered RAG system deployed on Microsoft Azure for large databases.

LANGUAGES

Spanish (native), **English** (full work proficiency) & **Italian** (limited work proficiency).
